Secretary's Report -
Treasurer's Report - Total in Savings and Checking - \$
Attendance - Lots!

There was a very brief meeting, because it was Picnic Night!

We have had some communication from the *Above and Beyond Children's Museum*, requesting some help with an observation hive. Several members have already been in contact. There will be an informational visit from the director at the beginning of our July meeting. They will explain what has already been done, and what they are hoping some members might be willing to help with.

Members were reminded to check their emails We have forwarded several emails of interest to club members.
